## Worksheet 1-10: Problem Solving with Parallelograms

1. The area of the parallelogram is $12 \mathrm{~cm}^{2}$. What is the base's length?

2. The area of the parallelogram is $10 \mathrm{~m}^{2}$. What is the height?

4 m
3. The parallelogram's height is twice its base's length. What is its area?

3.5 cm
$\qquad$

4. The area of the parallelogram $40 \mathrm{in}^{2}$. What is the base's length?

5. The perimeter of the parallelogram is 30 yd . Find the length of the slanted side or the slant height of the parallelogram.

6 yd
6. The area and perimeter of the parallelogram are $15 \mathrm{~cm}^{2}$ and 22 cm respectively. Find the slant height of the parallelogram.
